

Medical Interventions for Parma City Impounded Animals at Parma Animal Shelter

Notification: The Parma Animal Control Officer must be notified immediately when medical intervention is required.

Types of Interventions: (not an inclusive list, will be based on case by case presentation)

First Aid

- Airway management
- Hemorrhage control
- Bleeding
- Bites
- Stings
- Road accidents

Uncontrolled vomiting and diarrhea

Visible Fleas

- Flea Bath or oral medication

Comfort Grooming

- Trimming around eyes and genitalia

Volunteers must strictly adhere to the sign posted on a cage by the ACO if a dog is not to be walked

Documentation

The intervention discussion with ACO and plan must be documented in the animal's record.

Notify the Health and Welfare Chairperson and team.
